

Ten Simple Things to Immediately Reduce Your Water Consumption

- 1) Check for leaks
- 2) Install float valves on your water tanks
- 3) Mulch your garden
- 4) Use low-flow showerheads and sink faucets with aerator
- 5) Install a greywater system for perennials & fruit trees
- 6) Capture rainwater in your garden to reduce irrigation needs (build berms)
- 7) Install water efficient toilets, pee outside, and/or don't flush for pee
- 8) Bathe your kids together or save bath and shower water for toilet flushing
- 9) Please don't let the water run when you are washing dishes.
- 10) Install a water efficient washing machine
